

# INTERIOR COLLECTION

[www.trimlite.com](http://www.trimlite.com)

## OUR STORY

For over 30 years, Trimlite has been committed to producing high quality interior and exterior door and glass products. Founded in Vancouver, British Columbia, we operate manufacturing facilities in four countries with distribution locations across North America. Managing the largest interior wood door manufacturing facility in Western Canada, our team creates beautiful doors to meet your specific requirements.

Our Interior Door Collection is focused on the simple premise of crafting doors for the design needs of our diverse customers. It has something for every architectural space and style.

At Trimlite, Handcrafted Construction meets Modern Design.

## PRIVACY GUIDE

Trimlite offers an extensive line of glass options to choose from and the degree of opacity varies considerably. With each design, we have included a number which represents the “Privacy Level” for that product. Please refer to the guide below. Note: This guide is subjective. It should only be used when comparing Trimlite designs.

|                |                                                                       |   |   |                                                                          |   |   |                                                        |   |   |    |
|----------------|-----------------------------------------------------------------------|---|---|--------------------------------------------------------------------------|---|---|--------------------------------------------------------|---|---|----|
| <b>PRIVACY</b> | 1                                                                     | 2 | 3 | 4                                                                        | 5 | 6 | 7                                                      | 8 | 9 | 10 |
|                | <b>Completely Clear</b>                                               |   |   | <b>Diffused/Distorted</b>                                                |   |   | <b>Completely Opaque</b>                               |   |   |    |
|                | Objects can be clearly seen through the glass from the opposite side. |   |   | Objects are distorted, but can still be detected from the opposite side. |   |   | Only light will travel through from the opposite side. |   |   |    |

# INTERIOR DOOR INTRODUCTION

## LOCAL PRODUCTS

We source our wood products locally, selecting from high grades of Douglas Fir, Knotty Alder, and Pine. We believe our forests grow the best trees, and we want our doors to reflect that.

## FROM TREE TO HOME

Trimlite manufactures its door products both locally and globally, allowing us to control the quality of our products from tree to door.

## DETAILS MATTER

We pride ourselves on being manufacturers, and to us, the little details matter. Whether it is a perfect joint, a seam-free door, or a shaker with perfect edges, we want to build the best door, every time.

MODERN FARMHOUSE

A balanced blend of modern and rustic, the Modern Farmhouse style continues to be a rising trend. We paired some of our favorite doors and hinge options that intelligently mix modern and traditional.

CONTEMPORARY

Contemporary homes reflect the architecture and design of today. They represent smart design and curb appeal. We selected several doors that we believe represent the ethos of now and can be loved forever.

CRAFTSMAN

Craftsman homes emphasize hand-worked touches and beautiful detailing. Popularized at the turn of the 20th Century, it remains a popular design aesthetic. We have recommended several door and hardware options that give your doors the beautiful detailing a craftsman home requires.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

TRADITIONAL

Traditional homes are comforting and classic. Their interiors are calm, orderly and predictable. Everything matches and is consistent. We suggest these doors for completing the look in a traditional home style and décor.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

# QUICK SHIP PLANTATION LOUVER | Primed

The Primed Plantation Louver door is not your traditional louver door. Our oversized 3-1/4" louver slat increases ventilation and promotes airflow between rooms while providing the strength and stability of true stile and rail construction.

Our plantation louver door allows for increased privacy while maintaining all of the conventional benefits of a venting louver door.

Custom sizes also available. Contact your dealer for information.

# QUICK SHIP BARN DOOR HARDWARE

Trimlite™ offers several barn door and hardware options in matte black and brushed stainless steel. There are two styles of barn door track, rustic and contemporary. Our rustic track comes with a bent strap hanger. Trimlite™ also offers a contemporary track with a top mount roller. Our hardware is tested to handle doors up to 225 pounds and comes in two sizes, 84" and 96". Select your track and pair it with the perfect barn door handle and pull.

## French Doors

Trimlite™ offers a deep and versatile selection of French Door styles and glass designs to complement any architectural style. We offer three door species, Primed, Fir, and Knotty Alder, to match the other doors in your home. There are two French Door styles available—the 1501, which has the traditional ovolo French Door bead, or the 8601\*, which comes with a contemporary quirk bead. We offer a wide variety of decorative glass options, sure to complement any decor.

# CUSTOM DOORS INTRODUCTION

## LOCAL PRODUCTS

We source our wood products locally, selecting from high grades of Douglas Fir, Knotty Alder, and Pine. Each door represents the Pacific Northwest's best asset, our forests.

## MADE IN CANADA

Our custom doors are all proudly made in Canada. We operate the largest interior door manufacturing location in British Columbia and are proud of our heritage in British Columbia.

## DETAILS MATTER

We pride ourselves on being manufacturers, and to us, details matter. Whether it is a perfect joint, a seam-free door, or a shaker with perfect edges, we want to build the best door every time. Although it might take a little longer than our Quick Ship doors, we want to make sure each handmade door is right the first time.

29" x 6'10" Primed 8402

Trimlite's made in Canada custom shaker doors are factory primed for your convenience.

With many different styles to choose from, our custom primed doors will be the right fit for any project.

Custom options include 1-3/8" and 1-3/4" thicknesses, up to 6'0" x 10'0" door sizes.

 Available as 20-Minute Fire Door.

Note: French Door sizes for primed only. Contact your sales rep. for custom sizes.

Trimlite warrants, that each door bearing the Trimlite brand and identification mark, is of good material and workmanship and free from defects which renders them unserviceable or unfit for ordinary, recommended use. Trimlite warranty is for a period of ONE YEAR from date of shipment from Trimlite, provided the following conditions are met:

1. Manufacturing defects must be reported promptly before fitting, finishing, or hanging. Failure to do so will result in forfeiture of any warranty.
2. Provided that doors are operative, action on any claims after installation may be deferred at the option of Trimlite for a period not exceeding twelve months from date of complaint. During this time period, doors must remain hung in the original installation to permit conditioning to local humidity and temperature conditions.
3. Trimlite agrees, at our option, to either (1) repair without charge or (2) replace without charge or (3) refund original purchase price, any door that is defective within the meaning of this guarantee. Trimlite is not responsible for any costs associated with installation or finishing of replacement door or door components as well as any incidental or consequential damages, all of which will remain the sole responsibility of person making the warranty claim.
4. In the case of exterior applications, doors must be hung in a location protected from exposure to direct sun or rain under normal conditions. Refer to Care and Finishing Procedure for Wood Doors: Section: Figure 2 Overhang Guide
5. The entire door, including edges, top, bottom, and sides must receive at least two coats of an oil base paint, varnish, or sealer at the time of installation. Refer to Care and Finishing Section. (Failure to follow Trimlite finishing instructions will void any warranty.)
6. Trimlite warranty extends only to the first purchaser or retailer of said door(s) and is not transferable.

### Allowable Tolerances

1. Thickness, width, and height tolerances from nominal sizes shall not exceed 1/16" plus or minus.
2. A squareness tolerance of not more than 1/8" between two diagonal measurements taken across the face of the door shall be allowed.
3. For doors 3' x 7' or smaller, deformation (bow, cup, twist, warp) shall not be considered a defect unless it exceeds 1/4" in the plane of the door itself. Warranty can apply for 1-3/4" doors up to 42" x 96" if properly installed with a three-point locking mechanism.
4. Trimlite will not warranty against warp on any doors exceeding 42" in width or 96" in height.

### Exclusions

The following are not defects in workmanship or material and are not covered by this written warranty:

1. Damage caused by attempts other than Trimlite's to repair the door and/or unit.
2. Failure to properly seal the door. All edges must be sealed within 72 hours after fitting and hanging with the integrity of the finish maintained.
3. Defects caused by improper installation such that the door does not swing freely.
4. Damage cause by improper handling or on-site storage
5. Due to uncontrolled site conditions the appearance of field finished doors is not guaranteed by Trimlite.
6. Natural variations in the color or texture of the wood are not to be considered as defects.
7. Panel shrinkage is not considered a defect and would not be covered by this warranty.
8. Failure to provide normal homeowner maintenance on the door finish.
9. Doors or door components that are not finished and hung in accordance with the Care and Finishing instructions; and doors/ components that are exposed to direct sun or rain under normal conditions.

### Door Policy

1. RECEIVING: Upon receiving, order must be checked for accuracy or damage. If damage is apparent, it must be noted on the delivery receipt. Claims for shipping damage or loss must be filed with the carrier by the customer. While we do our best to protect product for shipping, wood doors are rather fragile and can be easily marked so a thorough inspection by your receiving dept. is necessary. Any damage or shortages must be reported to Trimlite Customer Service within 24 hours of receipt.
2. SPECIAL ORDERS: Care must be taken to insure order accuracy. Order sheets with swing diagrams are available. Special order cancellation will not be accepted once work has begun on the unit.
3. RETURN GOODS AUTHORIZATIONS (RGA) Contact your Trimlite representative to request inspection and return authorization. All doors approved for return must be shipped back to Trimlite in the same condition in which it was shipped. Your Trimlite account manager will specify the method of return. No credit will be given for doors returned in non-saleable condition. Trimlite will refuse any product returned which does not have an RGA number.

### Claim Policy

1. A representative of your firm must inspect the unit.
2. Provide purchase order number, invoice number, and original ship date.
3. Identify product and problem.
4. Provide contact names and phone numbers.
5. With the above information, Trimlite will make arrangements to go to the job site with a representative of your firm.
6. Upon establishing there is a valid warranty situation, Trimlite will repair, replace or refund the original purchase price as per the guarantee.
